

Spreading the knowledge...

**Dear Student,**

We would like to introduce ourselves as a leading IT services & solution provider company based at Meerut (U.P.). **OSCORP Technologies** is specialized in imparting different types of Learning and Training Program according to the needs of the Institute and students. Our Training-Cum-Placement Program is a process which starts with training based on live project (hand on real time case studies). Candidate will get Training Certificate & Project Certificate with Experience Letter. We provide all necessary stuffs like free web space, study materials, softwares & IDEs to students to develop and implement their projects in real time. Our methodology is more focused in practical work & implementations. Our trainers are working professionals from various industries having years of experiences.

### About OSCORP Technologies

We are an IT Services, Software Development and Training Company based at Meerut, U.P. We provide e-commerce solutions, ERP software solution, CRM software solutions, Web design, online marketing, and print and identity services.

We provide project based Learning Courses and Industrial Training on various latest and upcoming technologies like C#, ASP.NET, ADO.Net, MS SQL SERVER, HTML, Web Designing, Search Engine Optimization(SEO), Social Media Marketing and many more.

### What makes our courses unique?

We at OSCORP Technologies use these courses to share our field experiences with other development professionals. To this extent, the courses exploit both theoretical, innovative and practically tested methodologies. The highlights of our courses are field- based learning to ensure immediate application of the learned concepts. We use participatory learning approaches in all our learning. Learning together equips us better, to reduce poverty by empowering the rural poor and strengthening the local, national and international institutions.
